THE STATED CONVOCATIONS OF

# DAILY NEVADA STATE JOURNAL

C. Powning, Editor & Proprietor

SATURDAY.....DECEMBER 30, 1882.

## A Divided Court Expected.

The New York Herald says: The decision in the Supreme Court in the Southern Pacific Railroad and San Mateo case will have most far-reaching consequences, and what the decision is likely to be is hard to tell. On almost every important question under the Fourteenth Amendment that has come before the Court, the Judges have been divided, and in leading cases the division has been almost even. Since the earliest decisions have been rendered the personnel of the Court has been greatly changed. The question now raised is new and is presented to what is largely a new Court. That the Court will divide on it can hardly be doubted. It is also an interesting fact in this connection that Field, who had already given his opinion on questions in the Circuit Court of California, has dissented from many of the decisions of the Supreme Court on the meaning of the Fourteenth Amendment.

## Railway Building.

The Railway Age publishes a table showing that the number of miles of main track laid during the year 1882 was 10,821 or 316 lines in 44 States and Territories. Full returns will probably make the grand total 11,000 miles, which are 1,500 miles more than was constructed in 1881—the banner railroad build year up to that time. The number of miles constructed in the States mentioned is as follows: Iowa, 953; Texas, 817; New York, 752; Colorado, 500; Dakota, 480; Pennsylvania, 404; Minnesota, 444. Of 316 roads noted, 110 are still uncompleted. The capital invested during the year is estimated at \$270,000,000, exclusive of the sums expended for the preparation of roadbeds, on which the track is not yet laid. Building in the far West is as follows: California, 286; Arizona, 192; Utah, 175.

## The Speakership Candidates.

A Washington dispatch says the Speakership contest is unabated, though more in the nature of a still-hunt. Randall is gaining every day, and is said to be parceling out the Chairmanships. Carlisle is the most dignified of the contestants, but though his record is good it will not count in a fight like this. His principles are too high. Southern members say the fact that Carlisle is a Southern man handicaps him, for Democrats must conciliate a still existing sentiment in the North which shrinks from seeing ex-rebels in high places. Elect an ex-rebel and the Republicans might raise the cry that rebels were getting control of the Government. Morrison is not making a very active canvas. Blackburn is relying on a split. Springer has many elements of strength, and will make a lively push.

## Hotel Accommodations.

The San Francisco hotels are beginning to calculate upon the number of guests they can accommodate during the Triennial Conclave of Knights Templar in August next. The Bulletin says the Palace Hotel will be able to take about 2,300 hundred visitors by putting cot beds in every parlor and using every room vacated for the Summer. The Baldwin will fit rooms in St. Ann's building and the old St. Ignatius Church, and will thus dispose of 1,000 extra guests. The Lick, Grand and Occidental will take care of 1,700 more. The Lick House will be able to give 3,000 meals three times each day.

The San Francisco policeman, Lanktree, who stole \$5,000 worth of silk the other day, was a candidate for Treasurer of the Widow and Orphans Fund of the Police Association, with a good chance of being elected. He just missed another chance to display his genius for appropriating that which did not belong to him.

## Cash System! Cash System!

Since my first announcement that I proposed to place my business on a cash basis on Jan. 1st, I have received much encouragement from many of my customers. They appreciate the fact that it is a fair system, as all pay cash or its equivalent; they do not, as under the credit system, have charged to them the loss suffered by some debtor who has "skipped" his account, and frequently the country. Also the cash system has harmonious influences, there being fewer circumstances to create difficulties between the dealer and his customers, such as dunning, refusal of credit, suing, etc. I have in reserve a good proof that it pays to buy for cash. It is a price list, which will be out January 1, 1883. Send or call for one.

Respectfully,  
JERRY SCHOOLING.

The U. S. Senate is engaged upon the Fitz-John Porter case.

## NEVADA PRESS.

Views and Opinions Upon Current Topics and Events.

### THE STATE CONSTITUTION.

With regard to the necessity of revising the State Constitution, the Elko Independent says, there seems to be but one opinion, but in relation to the best method of accomplishing that object, opinion is divided between the calling of a Convention and amendments by the Legislature. The subject has received considerable discussion, and thus far the convention plan has shown, no particular advantages over the Legislature process. The latter would certainly be the most economical by far, and unless more weighty reasons are given for a convention than we have seen presented, the plan of Legislature amendment should be adopted. The fact that both parties in the late canvass endorsed the calling of a convention is held to pledge the members elect to that course under all circumstances. This does not strike everybody, however, as a correct view of the case, for while the feeling was general that a revision of the organic law was a necessity, it is reasonable to believe that the specifying of a particular plan by which such revision was to be affected was simply because that, at the time, was deemed the best; should a cheaper and equally as effective a one be discovered, we opine that its adoption by the Legislature would bring no charges of broken faith against the members of that body. An organic instrument which will meet the requirements of the changed conditions of the State is what the people want; the manner of its construction being merely a question of celerity and economy.

### WRONG ECONOMY.

The salaries paid the officials at the Nevada Insane Asylum are not enough, and until a raise is made, says the Carson Tribune, the right class of men and women will not much longer be procured. Think of a stalwart respectable person standing all the chances of broken limbs at the hands of lunatics who are not answerable for their actions, for the paltry sum of \$30 or \$40 per month, when they could make as much or more working on a farm or railroad. The position of Superintendent, from the fact of his having to be a professional man, should be held of such importance that his pay should be equal to that of any State official. Economy in State affairs is very desirable, but there is such a thing as false economy which is likely to entail heavy loss to the State.

### AT IT AGAIN.

Cassidy has been an agent of the Associated Press at Eureka for many years, says the Eureka Leader, and understands all the turnings and twistings of the telegraph. During his first session in Congress he freighted the wires with accounts of what Cassidy was doing in Congress. There is little doubt that by dint of this mode of free advertisement he created the impression that he was not only a great man but also a very industrious man amongst many Republican innocents. A glance at our telegraphic columns shows that he is at his old game again. There is an old and homely adage that "self-praise is half scandal," but it is about out of date. For monumental chock in the way of self-flaunting Cassidy is chief.

### THE INSANE ASYLUM.

The following from the Appeal, says the Eureka Leader, is simply amusing. Reno, through the efforts of its guardian divinity, the redoubtable Powning, is endeavoring to remove the State Prison from Carson to "Nevada's center of civilization," and no doubt a full lobby from both of these enterprising burgs will lay their claims before the affrighted Legislature within the next two weeks. Carson is bound to keep even, and is going to make an off-set by advocating the removal of the Insane Asylum to some interior town—Palisade, for instance—on a sanitary plea.

### THE HISTORY OF THE COAST.

The Carson Appeal says: The work of compiling a history of the Pacific Coast, begun by Herbert H. Bancroft, of San Francisco, is the greatest literary undertaking ever known in America. He began the work of collecting material in 1850 and now has 35,000 volumes stored in a fire proof building erected expressly for that purpose in San Francisco. He set twelve men at work in 1859 on the history and all they have been able to do since that time has consisted of indexing the subjects treated, and this alone has cost \$200,000. Nevada is to be allotted one volume in the work, and Thompson & West's History of Nevada would about make a preface to it. The result of all this labor and expense will be thirty-eight volumes, as follows: The Native Races of the Pacific States, 5 vols.; History of Mexico, 5 vols.; History of Central America, 3 vols.; History of the North Mexican States, 3 vols.; History of New Mexico and Arizona, 1 vol.; History of California, 7 vols.; History of Nevada, 1 vol.; History of Utah, 1 vol.; History of the Northwest Coast, 2 vols.; History of Oregon, 2 vols.; History of Washington, Idaho and Montana, 1 vol.; History of British Columbia, 1 vol.; History of Alaska, 1 vol.; California Pastoral, 1 vol.; California Inter Poem, 1 vol.; Popular Tribunals, 2 vols.; Essays and Miscellany, 1 vol.; Literary Industries, 1 vol.

### Auction Sale.

Miss M. A. Farney wishes to announce to the public, that she will have an auction sale of her entire stock and furniture goods, on Friday and Saturday, Dec. 29th, and 30th, afternoon and evening.

Henry Villard, the Northern Pacific Railroad King, has mortgaged his New York property for \$240,000. Our real estate is offered for a cypher off.

## LABOR NEWS FROM LANDS OF THE OLDER WORLD.

The Pitiful Condition of Europe's Workers Graphically Pictured.

Truth collated from the official reports of United States Consuls the following facts showing labor's pitiful condition in Europe:

### BELGIUM.

The lives of mechanics here are continual struggles for meagre subsistence and nothing but the severest economy enables them to live. At the very best, the lot of the workmen of Belgium is an unceasing battle against want.

### FRANCE.

Nice—The mechanics food consists principally of Indian meal, vegetables and black bread. Meat he rarely is able to obtain.

Marseilles—Not only must the husband but his wife and children must also labor in order to give the family the barest necessities of life.

### GERMANY.

Bremen—Same report as from Marseilles, France.

Dresden—Same.

Leipsic—Females are largely employed in business houses and the majority of the work in the fields is done by women.

Chemnitz—The same as in Marseilles. Tramps abound. Poverty and misery abound.

Frankfort—Batter and meat are never found on the table of even skilled mechanics.

Sonneburg and Maunheim—Black bread and potatoes are labor's usual food. Misery is extreme.

### ENGLAND.

In the Lancashire coal mines females are regularly employed in underground labor at wages that just enable them to live. Betty Harris, aged 37, a drawer in a coal pit, recently testified: "I have a belt around my waist and a chain between my legs to the truck. I pull the truck by crawling on my hands and feet; the road is very steep, and we have to hold on by anything we can catch hold of. There is no rope. There are six women and six boys or girls in my pit. It is very wet and the water comes up generally to my thighs; my clothes are always wet. I work 13 hours and make 9d (18 cents) per day."

Patience Kershaw, aged 17, clad in ragged trousers and a rough jacket, testified: "I work in these clothes; that bald place in my head is made by thrusting the cones; the coal-getters in our pit are naked. They pull off their clothes to work. All the men folks are naked at work. We women folks live to be about 28 or 30. No; we don't want to live any longer. We have to do this work or starve. I never was at school. Don't know how to read or write. Went to the pits when I was five or six years old. Work 14 to 16 hours; get 10d (20 cents) a day, if I can make it.

### IRELAND.

The food of laborers is principally potatoes. Wages from 14 to 20 cents per day.

### SCOTLAND.

Thousands of women are employed in the fields. Their average wages do not exceed 20 cents per day. The food is oatmeal and potatoes.

### WALES.

Women and children are compelled to work also in order to enable the family to live. They as well as the men drown their miseries in drink whenever it can be obtained. The poverty and misery are horrible.

### ITALY.

The laborer here seldom if ever is able to eat meat. Women and children are universally compelled to labor in order to live.

### SPAIN.

The food of the laborer is generally bread soaked in water to which is added a little oil and vinegar.

### Advertising Medium.

The advertising columns of the Journal afford an excellent opportunity to our readers to study out where purchases of all kinds can be made on the most advantageous terms. All classes of goods can there be found advertised from a suit of clothes or nice silk dress to the daintiest ornament in the jewelry line. The Journal reaches nearly every family as well as business house in the county, and, therefore, advertisers seek its columns that the public may know what they have for sale.

### THE WEEKLY JOURNAL

The WEEKLY JOURNAL, published every Saturday, will be furnished to those desiring it at 25c per year in advance. It will contain the local news of the week, a careful summary of the State, Pacific Coast and mining news, together with a variety of miscellaneous and editorial matter, containing more reading than any weekly paper ever published in the country. Those desiring to subscribe for the WEEKLY JOURNAL will please call at the publication office.

### Mother! Mother!! Mother!!!

Are you disturbed at night and broken of your rest by a sick child suffering and crying with the excruciating pain of cutting teeth? If so, go at once and get a bottle of MRS. WINSLOW'S SOOTHING SYRUP. It will relieve the little sufferer at once—depend upon it; there is no mistake about it. There is not a mother on earth who has ever used it who will not tell you at once that it will regulate the bowels, and give rest to the mother, and relief and health to the child, operating like magic. It is perfectly safe to use in all cases, and pleasant to the taste, and in the prescription of one of the oldest and best female physicians and nurses in the United States. Sold everywhere. 25 cents a bottle.

## DAILY NEVADA STATE JOURNAL

SATURDAY.....DECEMBER 30, 1882.

PRICE OF DAILY JOURNAL,  
12½ CENTS PER WEEK.

### TOWN AND COUNTY.

#### BREVITIES

The usual dance at Reform Club Hall to-night.

Surveyor General Freble came down from Carson last night.

The Journal's Annual for 1883 is out, and everybody thinks it a very handsome book.

Hon. C. S. Varian has no opposition for Speaker of the Assembly. Mr. Varian will make a most excellent presiding officer.

The Woman's Christian Temperance Union will give a sociable at the Reading Rooms this evening. All are invited. Cake and coffee, 10 cents.

Ladies who intend to receive on New Year's day and desire announcement made of the same in the columns of this paper, will please send notice immediately.

Senator Rockhill, of White Pine, Assemblyman Williams, of White Pine, and Assemblyman Hamill, of Elko, came in from the Great East last night, en route to Carson.

Hon. Geo. W. Dale, of Lander, Hon. Walter Marsden, of Eureka, Hon. H. J. Muldoon, of Eureka, and Chas. Fassett, Esq., of Ruby Hill, visited the Asylum yesterday, and took a ride around the town. They have some notion of buying up this entire section.

The public have always been lacking confidence in pawnbroker's shops, from the fact that they were here to-day and away to-morrow, they having no regard for the patronage of their customers, merely trying to take advantage whenever they could. We must note one exception in this State, and that is the establishment of Uncle Harris, the celebrated pioneer, No. 221 Kearney street, between Bush and Sutter.

**CHAS. F. COOPER.**

**CARSON'S PUBLIC OFFICERS AND CANDIDATES.**

[Smith] in Austin Reville.]

The new officers have nearly all made their arrangements for shelter during the coming four years. Some have purchased houses, because of the present depressed state of real estate—it is cheaper to buy than to rent. You can get property here for a tenth what it cost and it will be lower yet next Spring, for more people are going away and nobody comes to take their places. The public buildings alone keep the town up. It is estimated that the Capitol, Mint, Prison, Orphans' Home and Virginia and Truckee Railroad together disburse an average of nearly \$2,000 a day the year round. And this keeps Carson afloat. But to return: All of the new State officers will reside here. Of the outgoing I know but little, except that Governor Kinkaid, who adds an ex to his title in a week, intends remaining here for awhile and will entertain his hosts of friends. He is a princely entertainer, in fact I never met a more "comfortable" man in my life. His private secretary, Mr. Lyon, will devote some time to working up a bond case he has in hand. The transactions involved are so intricate that this scribe dare not attempt to unravel them. There is a faint rumor, just a breath, that Mr. Babcock would like to be a Deputy Warden and that he has pinned his hopes to Lieutenant Governor Laughlin's prospects of becoming ex-officio Warden. Mr. Chesley hopes to get some legislative copying to do. Failing in that he will go to Sacramento to live. Ex-Treasurer Crockett will remain in Carson for awhile. As yet he has not made any definite plans, but a business man of his rustle and experience cannot remain idle long and we shall soon hear of his embarking into some enterprise. May success attend him, R. H. Wright, his deputy, is a candidate for Assistant Secretary of the Assembly, and will get it. After that he goes to Virginia City to live. A. J. Hatch will go to San Francisco to reside. He likes to see breezes, evidently. His family is now in Germany on a pleasure jaunt. His deputy, Ike Fassett, will go to New York State, where, by economy while in office here, he has accumulated a little home for his wife and child and now proposes to enjoy it himself. Attorney General Murphy has been elected Judge of the Third Judicial District, and will doubtless return to Aurora to reside. He has a nice house here and will hardly be likely to move his family until Spring.

#### NOW IS YOUR CHANCE.

Miss M. A. Horney is selling out her entire stock at reduced rates. She accordingly invites all the ladies to come and examine her stock and assures them they may obtain all millinery and fancy goods at a great bargain, as she must dispose of her present stock.

The Palace Bakery has a magnificent assortment of Christmas candy toys and studies, also fresh nuts, etc.; and if you want a cake, plain or ornated, the Palace is the place to get it. This is the shop to get superior article for the price many pay for an inferior one.

Farmers and others desiring a general, lucrative agency business, by which \$5 to \$20 a day can be earned, send address at once on postal, to H. O. Wilkinson & Co., 195 and 197 Fulton St., New York.

### SWALLOWED A SHAWL-PIN.

#### A Singular Accident to a Little Girl at Virginia City.

The Virginia Chronicle of last evening states that on Thursday afternoon a six-year old daughter of Mrs. Scott, residing on Stewart street, swallowed a large shawl-pin about four inches in length. The pin had a brass ball on the end of it, and the little girl had the ball in her mouth, when she accidentally swallowed it. The mother of the girl was naturally frightened, and sent for Drs. Bergstein and Hall. They ascertained that the pin had passed into the girl's stomach, and will have to wait a day or two before its course and exact location can be determined. The little girl does not yet appear to suffer pain, but the accident may result seriously.

#### Nevada Dividend Mines.

Here is the bright side of our leading industry for 1882. Following are the dividend paying mines:

|                     |    |            |
|---------------------|----|------------|
| Alexander.....      | 1  | \$ 100,000 |
| Bristol.....        | 1  | 14,000     |
| Exchange.....       | 1  | 3,000      |
| Eureka Con.....     | 4  | 75,000     |
| Indian Queen.....   | 7  | 25,625     |
| Navajo.....         | 3  | 75,000     |
| Northern Belle..... | 9  | 225,000    |
| Richmond Con.....   | 3  | 270,000    |
| Total.....          | 29 | \$ 787,626 |
| In 1881.....        | 56 | 1,397,500  |

The Alexander dividend was paid in January from proceeds of the sale of the mine. The Exchange was paid in January and the Bristol in February. The Eureka Consolidated paid in April, May, June and July, Navajo in October, November and December, and Richmond Consolidated in February, August and November. The Indian Queen pays irregularly. The Northern Belle skipped May, June and July. The last named paid \$400,000 in 1881, and the Richmond \$540,000. The Richmond is owned in London.

#### A Card From Superintendent Dawson.

RENO, Dec. 28, 1882.

As a report has reached the State Board of Commissioners for the care of the insane, reflecting upon the management of the State Insane Asylum, I request anyone who has any knowledge or information as to any improper actions on the part of managers or any employee at the asylum, to communicate such knowledge or information to the Board, so that an investigation may be had.

It is due to the State and myself, who are responsible for the management, that any charge against me or my subordinates should be specifically made.

#### CUPID'S WORK FOR 1882 IN STOREY.

The Chronicle says that since Christmas, 1881, there have been 66 couples made happy in Virginia by having fallen victims to Cupid's arts. It appears by the records that May is the favorite time for lovers to unite, there being nine marriages during that month. August was a good second with eight, closely followed by January and June with seven each. February, July and December had an even half a dozen each. November, September and March four each. April didn't fool but three, while October brings up in the rear with but two.

#### HAVE GOT THEIR AUGER FAST.

The Enterprise says the workmen who have been engaged in boring an artesian well at White Plains, on the Central Pacific Railroad, have got their auger fast in the hole. The work will not stop, however. They are now rigging up proper appliances by means of which to extract the "frozen" bit. The sinking of this well is an experiment of much importance. It is what may be looked upon as a "test case." Should the well prove all that is hoped, many other wells will be sunk in the deserts and alkali plains of Nevada.

#### STOCKS.

The annexed were the latest quotations of stocks yesterday:

#### BENO GUARD BALL.

The Reno Guard ball, to come off on New Year's night, promises to be a brilliant affair. The pavilion has been secured for the occasion, and the best brass and string music engaged. Captain Abram Moer will be Director, which is surely that everything will be in regle. Tickets at \$2 each, including ladies.

A COUGH, COLD OR SORE THROAT should be stopped. Neglect frequently results in an incurable Lung Disease or Consumption. BROWN'S BRONCHIAL TROCHES do not disorder the stomach like cough syrups and balsams, but act directly on the inflamed parts, alleviating irritation, give relief in Asthma, Bronchitis, Coughs, Catarrh, and the Throat Troubles which Singers and Public Speakers are subject to. For thirty years Brown's Bronchial Troches have been recommended by physicians, and always give perfect satisfaction. Having been tested by wide and constant use for nearly an entire generation, they have attained well-merited rank among the few staple remedies of the age. Sold at 25c. a box everywhere.

### PRIZE BOOKS FOR SUBSCRIBERS.

#### The Weekly Journal's Climbing Arrangement with the Cincinnati Commercial.

Having made arrangements to club the WEEKLY JOURNAL with the Cincinnati Weekly Commercial, we announce that we will furnish the WEEKLY JOURNAL and the Cincinnati Weekly Commercial, a large 8-page, 56-column family newspaper, printed from large, clear new type, and furnishes more reading matter for the money than any other newspaper in the county, the issue of each week containing over twenty-two square feet of printed matter, and is not surpassed for news, business reports, literary and select reading, one year for \$3 50, and will give as a free prize to each yearly subscriber under this clubbing arrangement any one book he may select from the following famous works—postage paid and free of all cost—the books being unabridged, beautifully printed on good paper in paper covers:

Tennyson's Poems; The Arabian Nights; The Narrative of the Jeannette Arctic Expedition, by Lieut. Danenhower; The Mill on the Floss, by George Eliot; Wood's Natural History for Boys, (300 illustrations); East Lynne, by Mrs. Henry Wood; Vennor's Almanac for 1883; The Swiss Family Robinson; A Treatise on the Horse and His Diseases, by Dr. B. J. Kendall; The Woman in White, by Wilkie Collins; History of the Kingdom of Ireland; Warily, by Sir Walter Scott; A Brave Lady, by Miss Mulock; The Bible Dictionary; Lady Audley's Secret, by Miss Braddon.

It will be noticed that our selection of prizes covers an extraordinary range and variety of the brightest and best books.

Free specimen copies of the Cincinnati Weekly Commercial may be obtained by addressing M. Halstead & Co., Proprietors Commercial, Cincinnati, Ohio, and free specimen copies of the JOURNAL can be obtained by addressing C. C. Powning, Proprietor JOURNAL, Reno, Nevada.

Send postal card asking for specimen copies.

#### That Sulphuric Acid Explosion.

J. V. McCurdy, Superintendent of the Paradise mill, at which a strange explosion of sulphuric acid recently occurred, explains the accident as follows in a letter to the Silver State: "The night of the explosion Charles Schmidt and James McGhee proceeded to fill the pitcher, Mr. Schmidt standing by the side of the tank and turning the plug out with his hand, and Mr. McGhee standing at the end of the tank to turn or roll it over and empty the acid into the pitcher. There was a lamp near by, and as soon as the plug was removed the gas ignited, throwing Mr. Schmidt from fifteen to twenty feet and filling his eyes with acid. Olive oil was freely used and he was all right in a few hours. Mr. McGhee was not so fortunate. He was thrown into the sagebrush in front of the boilers, and one of his legs severely bruised and otherwise scratched and bruised. Had the plug been left out the gas could have escaped as it generated, and hereafter, no doubt, such a course will be observed by all who are acquainted with the results of this accident."
